

# We Can Make It

Ray Charles

Now you say you're gonna leave me  
Why did you want, hey, 'til I was in love with you?  
Girl, I've given you, given you, given you my all and all  
You picked me up, yeah, just to let me fall

And honey, you know (We can make it)  
Whoa, if you wanna try (If you wanna try)  
I want you to know (We can make it)  
Oh yeah, baby (If you wanna try)

Whoa, I, girl, I can't live my life without you, no  
Said not without you, baby, oh no  
Girl, you oughta think about it sometime  
Think about it, think about it before you leave me  
Hey, listen to this  
I say if you just look over your shoulder you'll see tears  
Oh darling, I'm down on my knees

And honey, you know (We can make it)  
Oh, if you wanna try (If you wanna try)  
And, oh, I know, I know, yeah (We can make it)  
All you got to do is try, love (If you wanna try)

Now, wait a minute, let me talk to you for a minute  
Girl, I've done the best I can  
And that's all any woman can ask of any man  
Now, I know you see your girlfriends wearing fine clothes and diamond  
rings  
But let me tell you something  
Fine clothes and diamond rings without someone to love ya  
Or without someone for you to love just don't mean nothing  
So remember this, whoa, whoa, oh

(We can make it)  
Said all you got to do is try, baby (If you wanna try)  
And, oh, I know, I know, I know (We can make it)  
Oh, if you wanna try, baby (If you wanna try)

Baby, one more thing I wanna tell you  
Don't you know that I'll never (We can make it)  
Said I'll never, said I'll never  
Said I'll never, never stop loving you, baby (If you wanna try)  
And oh, don't let nobody fool you, remember what I said (We can make  
it)  
And oh, girl, yeah (If you wanna try)  
Say it again, say it again, chillun, yeah, now (We can make it)  
Oh, oh, if you wanna try, baby (If you wanna try)
