

## Future Depends

## Rebelution

Plant a seed for the future depends  
Care and take for the younglings ahead  
Tend how we tend and we never forget  
Plant a seed for the future depends  
We'll keep you safe and protected  
Nurtured and we will defend

Looking at the time just run  
Thinking how far you've come  
Eternally thankful for life and so we show love  
Never leave sight  
Give the strength to survive  
Looking at the clock just run  
Thinking what you've become  
Eternally grateful for life  
So we show love  
Never leave sight  
Give the strength to survive

Plant a seed for the future depends  
Care and take for the younglings ahead  
We'll keep you safe and protected  
Nurtured and we will defend

Come up with the rising sun  
Take the days one by one  
Eternally thankful for health and so we show love  
Never leave sight  
Give the strength to survive  
Settle with the setting sun  
Taking in what we've done  
Eternally grateful for life and so we show love  
Never leave sight  
Give the strength to survive

And we thank what provides  
When the moment arrives  
Where we all come alive  
In due time

Plant a seed for the future depends
