

Settle Down Easy

Rebelution

If you need someone to hold on to
I'll help you settle down easy
And when your day is through
I'll help you settle down easy

Nothing satisfies me
As much as when you're happy
It's true

Nobody does it like you do
And I would only tell the truth
You know I'm honest you look beautiful in blue
But all the colors bring the beauty out in you
And when you're running
Come run my way
I'll meet you halfway
And love you always
Hey baby
I'll meet you there
Hey, nothing compares to you
If you ever need the weight off you
I'll help you settle down easy
And when our days are few
I'll help you settle down easy

La la la
It wasn't by chance
A reason that we both crossed paths
La la la
It wasn't by chance
A reason that we both crossed paths

Nothing satisfies me
As much as when you're happy
It's true

Nobody does it like you do
And I would only tell the truth
You know I'm honest you look beautiful in blue
But all the colors bring the beauty out in you
And when you're running
Come run my way
I'll meet you halfway
And love you always
Hey baby
I'll meet you there
Hey, nothing compares to you

There will be a time when
I look into your eyes and say
I knew
That one day I would find you
And instantly just fall into

Nobody does it like you do
And I would only tell the truth
You know I'm honest you look beautiful in blue

But all the colors bring the beauty out in you
And when you're running
Come run my way
I'll meet you halfway
And love you always
Hey baby
I'll meet you there
Hey, nothing compares to you

Nobody does it like you do
And I would only tell the truth
You know I'm honest you look beautiful in blue
But all the colors bring the beauty out in you
And when you're running
Come run my way
I'll meet you halfway
And love you always
Hey baby
I'll meet you there
Cause nothing compares to you
