## **West Wakes Up**

## **Red Lorry Yellow Lorry**

The west wakes up to find completeness in half-truth
The west wakes up to fall asleep
When I find it shows me sense is all forgotten
Then I'll wait then I'll wait

For a sign hope for predictions
The west wakes up it's easy to be gone

To keep my wishes in your pocket every night Won't help my now won't help me sleep R ealize the world outside is an illusion Where I wait where I wait

For a sign hope for predictions
The west wakes up it's easy to be gone
For a sign hope for predictions
The west wakes up it's easy to be gone

For a sign hope for predictions
The west wakes up it's easy to be gone
For a sign hope for predictions
The west wakes up it's easy to be gone

The west wakes up...
