

Allotment

Reef

Oh good God it's hurting
Think it's time that I was heading home
I had a plot for ages
Now my fruitful plot seems to have gone

If you know what that's about
If you please can work it out
I don't care how it may seem
Push me quickly, throw me on it

Thinking as I'm walking
But I've thought for far too long today
Stopped and ran some water
Sat and washed my troubles clean away

If you know what that's about
If you please can work it out
I don't care how it may seem
Push me quickly, throw me on it

If you know what that's about
If you please can work it out
I don't care how it may seem
Push me quickly, throw me on it

I don't know what you've been thinking
I can't wait and see
But you weren't the only one who lost when I left me

I don't know what you've been thinking
I can't wait and see
But you weren't the only one who lost when I left me
