

## I've Got Something to Say

Reef

I've got something to say;  
We have come a long way.  
After all the things that we have been through,  
I'm glad still to have you.  
I know your hurting, I know your hurting  
It will get better every day.

I Love all that you are.  
You are what I live for.  
After all the things that we have been through,  
I still don't have you.  
I know your hurting, I know your hurting  
It will get better every day.

I know your hurting, I know your hurting  
It will get better every day.
