

Hallucinations

Republika

Hallucinations must exist
so that we can hide in this bliss
the brave new world on monitors
oh keep emitting this smart film
film

we have delusions - nothing else
phantasmagorias of great days
emissions secretly perform their missions
gold stardust on the satellites
dust

so keep emitting this smart film
sick crazy colours I will dream
gold vomit runs down from my twisted lips
hallucinations must exist

hallucinations must exist
so that we can hide in this bliss
the brave new world on monitors
oh keep emitting this smart film
