

# Make A Wish

Richard Ashcroft

These feelings come and go I have no way of knowing  
Where they're gonna take me  
The only thing I know in life  
Is learning how it's so necessary

I'm trying very hard to have patience  
With the ones who keep letting me down  
Never saying anything  
Expecting me to be there clown

Sometimes the rain comes  
It clashes and hits my sun  
Sweet rainbow kiss my sky

I'll make a wish  
Help us with this life  
I'll make a wish  
I'll appreciate life

This world is so full of people  
They just masquerading  
I wanna know the real you  
Not the mask you have been wearing

Sometimes the rain comes  
It clashes and hits my sun  
Sweet rainbow kiss my sky

I'll make a wish  
Help us with this life  
I'll make a wish  
I'll appreciate life

I'll make a wish  
Help us with this life  
I'll make a wish  
I'll appreciate this life

I'm looking for the time, I waited for you at the station  
I thought about staying home, I had a little deliberation  
I'm trying very hard, hard to learn the words to tease you  
I'm trying very hard to learn the things to please you

Sometimes the rain comes  
It clashes and hits my sun  
Sweet rainbow kiss my sky

I'll make a wish  
Help us with this life  
I'll make a wish  
I'll appreciate life

I'll make a wish  
Help us with this life  
I'll make a wish  
Help with this life

I'll make a wish now  
Help us with this life  
I'll make a wish now
