

Breathless

Richard Marx

Never knew love before
Never dreamed there could be something more
Felt my heart overflow
With the danger of needing you so
It's a mystery I can't explain
But I shiver when I hear your name

You are the fire, every desire
Breathless we fall in love
Love is the answer, we are the dancers
Breathless we fall in love, we fall in love

You've crept into my soul
And I'm ready to lose all control
Let our hearts fill with light
Every movement you make is so right
It's a mystery I can't explain
But I shiver when I hear your name

No need to worry, no need to hurry
Breathless we fall in love
Love is the answer, we are the dancers
Breathless we fall in love, we fall in love

Fall
I fell in love with you baby
It's a mystery I can't explain
But I shiver when I hear your name

You are the fire, every desire
Breathless we fall in love
Love is the answer, we are the dancers
Breathless we fall in love, we fall in love

No need to worry, no need to hurry
Breathless we fall in love
Love is the answer, we are the dancers
Breathless we fall in love, we fall in love

You are the fire, every desire
You are the fire, every desire
You are the fire, every desire
