

Got Your Back

Ricky Dillon

Best friends, yeah, we're much more than that
Seems like you are my life hack
Well, I guess you are my other half
Same thoughts, never fail to make me laugh

Summers at the beach, making videos
Staying up late, singing favorite songs
No matter how many miles apart
FaceTime all night, still felt like you were by my side

Oh, you're always there for me
Oh, can't think of no one else
Oh, together through it all
No one can compete with that, just know I always got your back

No one can compete with that, just know I always got your back

Thanks for always keeping me on track
When I'm with you, I'm never putting on an act
Remember when we promised till the very end
No matter where, as long as I got my best friend

Road trips together, never getting bored
High school dances, yeah, we on the floor
No matter how many miles apart
FaceTime all night, still felt like you were by my side

Oh, you're always there for me
Oh, can't think of no one else
Oh, together through it all
No one can compete with that, just know I always got your back

No one can compete with that, just know I always got your back

Oh, no matter what's ahead, yeah
Together, we can do it all
Oh, if you ever need a friend, yeah
All you ever have to do is call

No one can compete with that, just know I always got your back
