```
The blood is rushing through my veins
Tonight we are going insane
Going upside-down, inside-out
Gonna make this night the best night out
(Woah-oh) When we get together
(Woah-oh) Look out cause we comin'
(Woah-oh, they ain't even ready)
(Woah-oh) Oh, oh, oh
Let's go hit the road, 'causin' trouble on the go
We walk through the door, they see us, jaws to the floor
Everywhere they hearin' us and everywhere they feelin' us
Now let's go, now you know this is how we steal the show
Steal the show, this is how we steal the show
Steal the show, this is how we steal the show
Steal the show, this is how we steal the show
Steal the show, this is how we steal the show
We gon' be the ones to blame
It's how they'll remember our name
Yeah, we got so loud they kicked us out
We don't care, yeah, we still shout
(Woah-oh) When we get together
(Woah-oh) Look out cause we're comin'
(Woah-oh, they ain't even ready)
(Woah-oh) Oh, oh, oh
Let's go hit the road, 'causin' trouble on the go
We walk through the door, they see us, jaws to the floor
Everywhere they hearin' us and everywhere they feelin' us
Now let's go, now you know this is how we steal the show
Steal the show, this is how we steal the show
Steal the show, this is how we steal the show
Steal the show, this is how we steal the show
Steal the show, this is how we steal the show
Here we go
Here we go
They will try to capture us, but we'll be runnin' all night
You know we're unstoppable, yeah, we're blindin', ultraviolet light
Let's go hit the road, 'causin' trouble on the go
We walk through the door, they see us, jaws to the floor
Everywhere they hearin' us and everywhere they feelin' us
Now let's go, now you know this is how we steal the show
Steal the show, this is how we steal the show
Steal the show, this is how we steal the show
Steal the show, this is how we steal the show
Steal the show, this is how we steal the show
