

# Radio Girl

Ricky Nelson

Get in your car and go  
Dependin' on how you feel  
Turn up your radio  
DJ says the love is real  
He thinks it's the latest sensation  
And you just keep changin' the station  
(believe me baby) Do you know what love is about  
Heard it on your stereo  
Ev'rybody does without  
Brokenhearted comic book hero  
Don't worry your pretty little head now honey  
It's only top twenty

Whoah oh oh  
Radio girl  
Radio girl  
Livin' for that three minute song  
Welcome to the real world  
Transistor sister  
That's right mister  
The Radio Girl

And ev'rybody's waiting for  
Fairy godmother to show  
You ain't holdin' your breath anymore  
Turn up the radio  
Here's a song just came in from left field  
And you're goin' rite thru the windshield

Whoah oh oh  
Radio girl  
Radio girl  
Livin' for that three minute song  
Welcome to the real world  
Transistor sister  
That's right mister  
The Radio Girl

They wanna know  
What's wrong with you  
They want you to  
Come out and play  
You're gonna push in all the buttons  
Blow them all away  
They got their whole lives to tell you  
How much stuff they can sell you

Whoah oh oh  
Radio girl  
Radio girl  
Livin' for that three minute song  
Welcome to the real world  
Transistor sister  
That's right mister  
The Radio Girl
