

# Make God First

Ricky Skaggs

In God we trust, we said that in the past  
Now look at us, another golden calf  
That bubbles burst, this thing's reversed  
Let's take a second, and make God first

Make God first

And if I pray, would He recognize my voice  
My Lord, my God, to often my last choice  
Wait 'til it's worse, before I thirst  
Let's take a second, and make God first

Make God first

First inside my heart  
First in every part  
Of everything I do

Let's make God first

It's all become pomp and circumstance  
And we forget, who brought us to the dance  
We're so rehearsed, we're so well versed  
Let's take a second, and make God first

Let's make God first  
Let's make God first  
Make God first
