

# Always Gon Be

Rittz

Cameras flashing  
Spot lights getting high on me like  
Turn this antenna rashes  
And you cannot match it  
I'm a blew up  
And call it a competition never can to ashes  
Let us trend the fashion new clothes a plus  
Yelawolf changed my life so much it chokes me up  
You talk about me when I was broke and  
He gave me the hope I lost  
And now I'm gone on the road so much  
And now you're lonely love  
I just wish we could touch through the phone but just  
Stay focused and note that I'm trying to make a living for the both of us  
And when the chuckle up  
I might close enough to finally buy us a car  
With our own apartment he embark a dream,  
On stage in saw to rin  
A shy town thinking that you'll get drunk and screams  
I'm a feel like a sailor of a sicker submarine  
Trying to keep both of our heads above the water  
I know you want kids but we live with your mom  
How the fuck am I supposed to become a father  
When I spent my last hundred dollars on studio time  
But you ain't ever gave a fuck about bread  
I'm a give you the life you deserve one day  
While you crying all alone in our bed  
I'm on the bus and the bunk  
Having dreams barbecuing in the yard for the dog to run  
I've been gone so long it feels weird talking on the phone  
Before you know it I be coming home  
And fuck rap, you're my backbone  
When I'm at home with you it's like I'm really in my comfort zone  
A thousand miles away looking at the sky I can pray  
I can God you ain't all alone

'Cause I've been thinking about you all day  
And I've been walking down this hallway  
And now your love just seems so far away  
But maybe that's the way it's always gon be  
And every day my heart aches  
I'm just sitting in this dark place  
And now your love just seems so far away  
But maybe that's the way it's always gon be

Fights on facebook  
All you see these pics they took with me  
You can't believe the hype  
Every night we fight about girls you see  
On the internet, thinking I'm cheating  
And I gotta defend myself from bullshit you accused me of  
You hate that I do music your  
Think I'm up late tripping getting groupie love  
Crying to me is unnecessary  
Losing you is the last thing we want  
If only you could trust, then I'd miss you as much as you miss me  
And I wish we could be on the couch together

But we ain't got no cheddar  
No kind of crib that history can we deserve better  
Can't accept the misery I know you had a real hard life  
And it's harder when I'm gone  
But I promise you one day shit will make sense  
It will be alright  
I sent flowers to your job today  
I put my headphones on and I played a song  
No I mean the bicycles I just got done  
Sorry that you had to wait up long  
So many nights when we'd hang up on each other  
Really fighting 'cause I can't come home  
Got a hotel room just to facetime with you tonight  
Don't put make up on  
Because your face just looks so beautiful  
And I promised that I'd always be true to you  
So many people travelling in pursuit of their true love  
But never get the feeling that I do from you  
So many human beings tryin live their whole life with their soulmate  
But I found mine  
While you laid up in the house crying  
We both been counting down time

'Cause I've been thinking about you all day  
And I've been walking down this hallway  
And now your love just seems so far away  
But maybe that's the way it's always gon be  
And every day my heart aches  
I'm just sitting in this dark place  
And now your love just seems so far away  
But maybe that's the way it's always gon be
