

Switch Lanes

Rittz

I pull that brown about it, that purple bag
Polo boots for my shirt to match
Given the minimum see further back
Hit the gas in my 13 special,
Paid it 5 off with turning heads
Star status, arm tattered,
Out the window dudes lookin hard at us
Cause their girlfriends wanna jump in
They don't wanna fuck me,
Man these hoes got a cough
Finish but let's roll, roll, roll
Hit the pedal and let's ride
So much smoking boppin out the window
Looking like the left is on fire

When I be ridin in the car, geeker in the back
Shawty in the front, windows pitch black
Switch lanes, lalalalalala
Switch lanes, lalalalalala
I be driving in the car, session in the bay
Hit me in the front, so I ain't wearing my pass
Switch lanes, lalalalalala
Switch lanes, lalalalalala

Spin through ga like I'm rhyming that generally
I rep ...up the engine when I'm in the street
My kick does beat, you thought that a parade was coming
You probably thought that someone threw a grenade or something
You tryina say you ain't impressed, please save it woman
Catch you all up in the sea, getting naked
Wanted to make, oh but you better not get any make up on it
These car jackers wanna follow me to take it from me
I got some head to pull up my seed waiting on me
So why your face still funny? Homie you still jealous on me
Cause I pull up on the scene so elegantly,
Me and mike pete together when we get on the beat
We might have seen a little fame but we still in the street
From the A all the way to the D,
Though the piece to the hate is the hate when I see
All the ladies start waving at me

When I be ridin in the car, geeker in the back
Shawty in the front, windows pitch black
Switch lanes, lalalalalala
Switch lanes, lalalalalala
I be driving in the car, session in the bay
Hit me in the front, so I ain't wearing my pass
Switch lanes, lalalalalala
Switch lanes, lalalalalala

I ain't going nowhere, I ain't going on
I just need that tick, tick, followed by that
And that can get me right, can you feel me
See I've been wondering why
The only time I'm still me, is

When I be ridin in the car, geeker in the back

Shawty in the front, windows pitch black
Switch lanes, lalalalalalala
Switch lanes, lalalalalalala
I be driving in the car, session in the bay
Hit me in the front, so I ain't wearing my pass
Switch lanes, lalalalalalala
Switch lanes, lalalalalalala.
