

# The Love Above

Rittz

Smoking weed and drinking good  
Pimping with [?]  
White and Gwinnett my neck of the woods  
The feeling so imperial, Slumerican cliental  
Any other crew is unparalleled  
We hail from another galaxy  
You ain't even on the same cloud as me  
I be looking down on em from a couple hundred thousand feet  
Came back from the planet and I ride on 85  
Waited all my life for this day, and it's arrived  
Home team, screaming "North side till I die"  
I reply "Can I get a high five?" they like  
Yeah  
Shit, yeah

My red afro hanging out my back, skull cap  
Diamonds on my watch, my timing is correct  
Everybody looking at my shoes like "ooh"  
You'd be lucky if you find a place to buy these on the web  
Wait, hold on, let me quit, I ain't tripping on no swag shit  
I'm just happy that I finally stacked a rack bitch  
Tryna add zeros to the balance on my bank slip  
Now I ride a Cadillac and let the candy paint drip  
Way too fine to drive a BT Cruiser  
You wish that you could fit your feet in these Supra's  
We don't smoke the same weed we use to  
People hear my music and it screams the future  
Like Doc Brown and Marty McFly  
You hear that coming out, harden the ride  
I park the car and I ride, up in the party cause I  
Done seen this fine bitch, standing right in front of my eyes  
And I saw the

Future right in front of me, and the music got us falling in love  
And everybody's on to me, looking down on em from above  
And all my homies like yeah

Slick boy with me so it's freaky freeze  
Going steady in the Chevy, I don't freeze this chain  
My ride never been squeaky clean, the reek is green  
The police pull me over, guarantee I'm gonna Phunk Dawg  
Breathalyzer, but never mind her  
Cock sucking, cop tryna get behind us  
Instead of driving slow I hit the gas pedal then I trunk a  
Deuce in the sky, but I'm really saying fuck you  
Bust a left on Chesterridge road  
Bout to do another show up in Smith's Olde Bar  
My girl [?] Dj'ing, She playing speakerboxxx  
Hit so hard, I walked in and I grin cause my favorite tune is still spinning  
Singing "I like the way you move"  
I bought a Crown and Sprite, I look around the right hand  
I seen her from across the room, and I saw the

Future right in front of me, and the music got us falling in love  
And everybody's on to me, looking down on em from above  
And all my homies like yeah

It's the after party and the show is over  
See me at the bar chugging a [?]  
I done had the bars, and now I had the bar  
A couple shots on weed, let's propose a toast  
Cheers, here's to being alive and still here  
Started squeezing a lime, but shots of [?]  
See me drinking I guarantee you it's not moscato  
Got to serve my Vodka bottle  
With some Crown 'Royale' in my future  
People showing me love, I tell em' that feeling is mutual, Imma be back  
Getting positive feedback, I need that  
Might of seen me in the city rocking with rehab  
Tomorrow we leave at the break of dawn  
So tonight we gonna drink it till we wasted drunk  
Some fine young girl walked to me like a groupie  
[?] scarface was on, and I saw the

Future right in front of me, and the music got us falling in love  
And everybody's on to me, looking down on em from above  
And all my homies like yeah
