

## Wish You Could

Rittz

North side shit, you can find me out on beaver ruin  
Up inside a Cutlass or a Buick  
Instead of hating on it just salute it  
Don't my car better than what else are you in  
The police pulled me over, I was cooling  
Tried to say that I was under the influence  
Well I was on the brew and on a pill  
Said I got a script, tell em I don't distribute it  
I got a plan, it's time to execute it  
A while ago while i was going through it  
Now I'm looking like I'm MJ  
Dunking on a bunch of Patrick Ewings, like like you and  
Your money grow a ton, your ho be chewing  
But fuck em, I ain't into rescuing, but you can  
I'm smoking on that Cali when I flew in  
Bought a 77 you know I'm bout to go tattoo it  
My group be kicking it on Steve Reynolds road  
You want to holler, meet me at the Dollar General  
I'm with a Slum bitch by the name of Vindigo  
She know to twerk it like she working on the stripper pole  
A playmate face, body like a centerfold  
I get her hooked, leave her squirming on my fishing pole  
I get a stack of Benjamins up in the envelope  
It's time to let em know it's 7-7-0, cause I...

Started in the A, now it's nation wide  
All around the world I be getting love  
Look at how I do it, I ain't got to try  
So fly, man it's in my blood  
And I'm sitting straight  
I'm living good  
Want to hate on me, I wish you would  
I'm sitting straight  
I'm living good  
Getting money that you wish that you could  
I put my foot in a brand new pair of Js  
Everywhere we go, people stare at us  
I was born to be a star, I ain't got to try  
I'm so fly, man it's in my blood  
And I'm sitting straight  
I'm living good  
Want to hate on me, I wish you would  
I'm sitting straight  
I'm living good  
Getting money that you wish that you could

You know I party every day like it's the weekend  
We was getting drunk at 3pm  
Eyes leaning like I'm a Korean  
Drinking Jameson, it's got me feeling European  
These bitches showing titties on my DM  
Chieffing Colorado with my G-Pen  
Haters, they don't really want no beef, nah  
He'll turn a hater to a vegan, now beat it  
Now beat them up and leave them on the cement  
Swimming in the money, stick your feet in  
My tour manager now my GM

He be standing on the bitches at the lobby in the Sleep-Inn  
And we ain't even peek, this a prelim'  
My life is like a movie you can see it, so peep it  
I'm leaning in my colors, playing who's that creeping in your window  
In a ski mask, these motherfuckers sleeping

I be representing for the north side of Atlanta  
I stand out in a crowd so they start pulling out their camera  
Bout to speed it up, I slow it down so there ain't no misunderstanding  
That I'm bout to blow, when I drove Area, you know they disappearing, them d  
ope  
And they know I

You know I got internet trippin' on my new release  
Killing the industry like I went on a shooting spree  
My pockets finally growing up, they went through puberty  
I spent a couple hundred dollars on my shoes at least  
I got your boo stripping, coming out of Gucci jeans  
Some more weed and a bottle of booze to drink  
And baby blue '82 Caprice, if you cool I'mma take it down a few degrees  
And you know I
