

# The Things You Do To Me

Robert Cray

It's been so long  
I really need to see you, baby  
So long

When I called you up  
And talked to you yesterday, baby  
You really rocked me  
Oh, you rocked me

I made my promise to you, darling  
And I'm gonna do what needs be done

You've made me understand, baby  
That hearts ain't made from stone  
The things you do to me, yeah

Three o'clock in the morning  
I wake up  
Can't go back to sleep

I get a real, real, real good feeling  
Way down inside  
Knowing you're in love with me

It's so hard  
To be away from you, baby  
Only makes me want you more

You're so good to me, baby  
It makes it hard to walk out that door

But, oh, the things you do to me  
Yeah

I made my promise now, darling  
And I'm gonna do what needs be done  
Yes I am

You've made me understand, baby  
That hearts ain't made from stone

And, oh, the things you do to me  
Yeah

Oh, the things you do to me

It's so hard to get away from you, baby

Oh, those things you do to me

The things you do to me
