

## Something I Do

Robert Earl Keen

I am the king of burning daylight, holdin' my own  
I've been doin' alright, leaving well enough alone  
My Daddy told me I was lazy, my momma said, I love you too

I kind of like just, doin' nothing  
It's something that I do  
I kind of like just, doin' nothing  
It's something that I do

I read the sports page, make some coffee, turn the TV on  
I feed the gold fish, fix a sandwich, ignore the telephone  
My baby tells me, you're so lazy, my baby say we love you too

I kind of like just, doin' nothing  
It's something that I do  
(He kind of likes just doin' nothing)  
It's something that I do

I got a cabin and a campfire, stars up in the sky ("sky" echoes  
)  
I got a ummm, good hearted woman, I think I'm getting by  
I tell my baby, I am the ?barritz?, my baby says you move me to  
o

I kind of like just, doin' nothing  
It's something that I do  
(He kind of likes just doin' nothing)  
It's something that I do

Alright

I love a clear day, an open highway, a lonesome fiddle tune  
I love a party, with friends and family, napping in the afterno  
on  
I might be lazy, I ain't crazy, I love my baby, she loves me to  
o

I kind of like (he kind of likes just), just doin' nothing  
It's something that I do  
I kind of like (he kind of likes just), just doin' nothing  
It's something that I do  
(He kind of likes just doin' nothing)  
It's something that I do  
(He kind of likes just doin' nothing)  
It's something that I do  
Alright
