Memory Song (Hello Hello)

Robert Plant

On my mind - all my talk

From the lips of so many memory songs

Prince of cool - are you lost without a crew?

Stars still shine - winds will howl

All my friends sense you now

On my mind - all my talk

From the lips of so many memory songs

Prince of cool - are you lost without the crew?

Beneath divided, we had our day

But hell provideth, I'm sad to say

Hello, hello, hello
I saw you once before
In my dreams you've come to call
You are my friend, you are my friend
You touch my soul

You touch my soul Hello, hello, hello Hello, hello, hello
