

All That I Want

Robin Trower

When you are gone
Shadows of doubt come out
All coz the night's
They get so long
That's when our love is found
You can't erase all the fears
And make the ghosts disappear
Just like you do when you hear
I am gone

O baby
All that I want I is the reassurance
That love will stay
All that I need is your heart to beat with mine
The light'll never fade
Away

Sometimes the miles
Can open up all the doors
Wipe out the distance between us
Talk all the rumours

Just say your heart is still true
I just wanna hear it from you
All that we have
We can't lose when the mind is sound

O baby
All that I want I is the reassurance
That love will stay
All that I need is your heart to beat with mine
The light'll never fade
Away
