

# Good Day

Robin Trower

It's a good day  
Tear it up leave the troubles behind  
It's a new way  
Step it up to the beat of the time  
I'm on a mission  
Ready to up and fly

It's a new day  
The feeling so good inside  
There's a reason  
For all the things that we live and learn ooh

It's a season  
Let it go now  
We take our turn yeah  
No indecision  
Ready to up and fly

It's a good day and the feeling's alright

Brave life Big skies  
That's where it all begins  
Starlight show me the way

When I hear the guitar man play

I feel it coming  
It's the voice of a new generation  
Rivers runnin'  
Streamin' with a new vibration yeah  
Let's burn the track now  
Ready to move on ahead yeah

It's a good day  
And I'm feelin' good inside  
Feelin' so good inside yeah

Play it Play it

Huh

Yeah yeah

Woo whooo  
Huh huh huh

Come on so  
Let's burn the track now  
Ready to move on ahead

It's a good day  
I'm feelin' good inside

I'm feelin' good inside
