

(Let's) Turn This Fight Into A Brawl

Robin Trower

I don't wanna play it safe girl
Fact I don't wanna play at all
I think it's time to get serious
Let's turn this fight into a brawl

I want to see what you've been hiding
Under that sweet talk southern crawl
I think its time to get serious
Let's turn this fight into a brawl

Comes a time when fighting words
Are just a line through what's said or heard
But when two hearts would beat as one
They must show what they've become
Let's turn it, baby let's turn it, let's turn it
Let's turn this fight into a brawl

What you got is so exciting
Why keep it under lock and key?
I think we could between the two of us
Tie this thing up or set it free

But when two hearts would beat as one
They must show what they've become
Baby lt's turn it, c'mon let's turn it, let's turn it
Let's turn this fight into a brawl

Let's turn it, let's turn it baby...
