

Lost in love

Robin Trower

Far away,
Out where the mountains kiss the sky
Lost in love,
And days and nights go drifting by
Beyond the clouds, or so it seems
There's a wondrous place for you and I
The lost horizon of our dreams
Where we could watch the world go by
Come with me,
A flower blossoms in her way
Lost in love,
She is the song of life I heard her say
Beyond the clouds, or so it seems
There's a wondrous place for you and I
The lost horizon of our dreams
Where we could watch the world go by
Beyond the clouds, or so it seems
There's a wondrous place for you and I
The lost horizon of our dreams
Where we could watch the world go by
Lost in love
Lost in love
Lost in love
Lost in love
