

This Blue Love

Robin Trower

I have seen our life apart
And I've, seen our life together
I know here in my heart
What's bringing me most pain
I have tried to see the good
And I, wish for life forever
But now I realize
Can't go that way again

I don't want you
I don't need you, anymore
In the hope that this is true
I'm turnin' away from you
And This Blue Love

You say that there were times
When our love was at full flood
And you and I believed, we were unbreakable
But the love has ebbed away
With a cooling of the blood
And the storm that we went through, was unmistakable

I don't want you
I don't need you, anymore
In the hope that this is true
I'm turnin' away from you
And This Blue Love

I don't want you,
I don't need you...
