

# United State of Mind

Robin Trower

5am in the morning  
Ravers getting me down  
Had to stop the world from spinnin', spinnin' round  
I don't need no company  
Horizon be my friend  
My wildest thoughts I'd follow, to the end

On a lonely highway  
This world is mine  
On a lonely highway  
This united state of mind, state of mind

Pleasure was my master  
Wasting all my time  
Searchin' for what came after  
Couldn't find

Take me from my shadow  
Let me see the light  
I been down the killing floor  
Gangsta ride, yeah

On a lonely highway  
This world is mine  
On a lonely highway  
This united state of mind, state of mind

On a lonely highway  
This world is mine  
On a lonely highway  
This united state of mind, state of mind...
