

Meat

Robyn Hitchcock

It don't feel much like a home without a dog
It don't feel much like a pool without a frog
It don't feel much like a world without a girl
It don't feel much like a girl without a human being
It don't feel much like a fish without a pond
It don't feel much like a fence with no beyond
It don't feel much like a church without a god inside
It don't feel much like a bank without a lot of money
Oh come on baby give me your meat
It don't feel much like a foot without a shoe
It don't feel much like a me without a you
It don't feel much like a train without a buffet car
It don't feel much like a bed when there's nobody on it
Ah swallow it
It don't feel much like a bath without a plug
It don't feel much like a hole without a drug
It don't feel much like a drug without a side effect
It don't feel much like an effect if you don't love nobody
Come on baby gimme your meat
