

# Mirror Mirror

Roger Daltrey

You can float your boat in China  
It could take you all night  
It could take a long time  
To forget about me

You might find another lover  
He might even sail you  
But you will still remember  
How we made love time the first

Time ever was sacred  
We were deep in love time the way love  
Does a reflection  
Now you can tell a lie real good  
And maybe I'll believe every word

Mirror mirror on the wall  
Look into my crystal ball  
Let me in your darkest hour  
Mirror mirror take a look into me now

I can feel your stormy weather  
I can feel your wind blow  
Every time you come close  
Why do you deny me?

I might find another lover  
She might even save me  
But I will still remember  
How we made love time the first

Time ever was sacred  
We were deep in love time the way love  
Does a reflection  
Now I can tell a lie real good  
And maybe you'll believe every word

Mirror mirror on the wall  
Look into my crystal ball  
Let me in your darkest hour  
Mirror mirror take a look into me now

Mirror mirror on the wall  
Look into my crystal ball  
Let me in your darkest hour  
Mirror mirror mirror take a look into me  
Take a good look into me now

You can float your boat in China  
It could take you all night  
It could take a long, long time  
To forget about me

I will feel your stormy weather  
I will feel your wind blow  
Baby, when you come close  
Come and make love
