

Baby Freestyle

Roll Deep

I tried to find myself a new (baby)
But it didn't work, I'm still a part of my ex (baby)
She's been looking, I've been looking
But really, I'm hers (baby)
And she is my baby, she's my lady
She's my (baby)
I remember when I used to live [?] with my (baby)
Can you make me cheese and pitta?
Bring me a drink, please
She's the one I want
I won't go back on my word
Even if I see a herd of girls that all look choong
I still can't forget my baby
My life is messy
Temptation is always tryna trick my (baby)
Temptation tries to get me every day
I fight it, you wanted attention
Way you went about it, I didn't like it (baby)
But I'm a bastard baby, mastered music since a baby
She belongs to who? You, blud? No, she is my (baby)
Don't be clever cause you chirpsed her
And she gave you her number
She doesn't like you, she's on a rebound
She's just getting that meat, you clown
You've had your fun, now piss off, go on
I don't wanna see your face near the face of my baby
Stay away from my (baby)
