Roll Deep

Yeah

L-E

These streets man, they're claiming  
They're claiming a lot of victims  
But you know, just have to keep your head up and keep moving innit  
Remember the rules and regulations out here  
There's rules and regulations  
Shh (move on your toes)

[Jet Le:]

When the smoke clears and the war's done  
And we get back to business and have fun  
And we look at the shape of things in sums  
What is this a re-run? Got me thinking how come  
I can't take time, I need things now  
Back [?] on the road with some penpals  
Dig deep if the trouble comes  
Head high 'cause I never run  
Stand strong if you are the one  
Locked down in the system  
Court case pending and we missed them  
Asking why'd you have to go and be like that?  
Know I've always got your back, I'm looking out for you  
Weren't as tight as we could have been  
When you come out imma help you out king  
And I know that life is tough  
Can't settle for the minimum, that ain't good enough

[Riko:]

Cah you're still in my mind and you're outta sight  
I know it's a long way away blud, you'll see the light  
You'll be alright  
I know your days feel dark but dem soon get bright

Cah you're still in my mind and you're outta sight  
I know it's a long way away blud, you'll see the light  
You'll be alright  
I know your days feel dark but dem soon get bright

[Breeze:]

Focus, look at me, focus  
Stop fucking with this hocus pocus  
Don't gamble your strip like poker  
Playing cards with a handful of jokers  
Heaven knows you ain't keeping it real  
Got kids and you're still going on with nonsense  
Lick down people at your own free will  
Got no soul, not in touch with your conscience  
Knuckle down, put the strap and buckle down  
Before you make the gun cops come around  
Blud I seen a ship go down  
Captain and his whole ship go down  
Settle off, put the mekkle off  
Better if you're humble, you'll be better off  
Blud I think you better do the B now  
Whole strip's hot now, better cool off

[Riko:]

Cah you're still in my mind and you're outta sight  
I know it's a long way away blud, you'll see the light  
You'll be alright  
I know your days feel dark but dem soon get bright

[Flowdan:]

Yo, a little line from the ink  
Because every time I blink, I always think  
It's been a while since  
You used to roll in the banger with the limousine tints  
Everybody's cool from the bits  
Since you ain't been around the money's peppered like mints  
But the lemon still flips  
And the studio's built now, everyting cris'  
The mixtape's finished and it's coming out soon  
You'll be coming out soon, just a couple more moons  
I'm going Westwood again, I'll big you up again  
[?] heard that you're repping on the wing like a goon  
You got your meditation  
But a meditation is better for them type of situations  
You know the rules and the regulations  
God nah [?] for the righteous one

[Riko:]

[Riko:]

Yeah, blud I know how you're feeling  
Some say they're feeling your pain but they don't know the meaning  
I know what it's like when you're dreaming that you're on road  
And you wake up sweating and screaming  
Pricks on the wings, they'll do the clinging  
That's not you, I know you're just breeze  
It's in your sentence, all easy  
You got a mobile so we can reason  
It's like everyting happens for a reason  
You'll be back in about five seasons  
And remember  
Any boy disrespect, just scrub up the boy and beat him  
After then just leave him  
Make the boy feel lucky for leaving breathing  
But back on a serious tip  
When I spoke to your brother he was saying all the weirdest shit

[Riko:]
