

Middle Of Love

Ron Sexsmith

Well, I can't talk now
I'm in the middle of love
And I can't stop now
I'm in the middle of a love

I'm in the middle of something so real
It's taking all my time
And energy just to really feel
What's in this heart of mine

I'll have to call you back
I'm in the middle of love
Can't afford to lose track
I'm in the middle of a love

For ages I've been squandering my time
Staring at the walls
Legless with a wandering eye
Never thought I'd fall

In the middle of love
Right in the middle of love

And I can't go back
From a palace to a shack
From email to a fax machine
Oh no

I'm in the middle of something so true
And I'm not going to blow it
A million dreams have fallen through
But this one I'll throw it

In the middle of love
Right in the middle of love

From email to a fax machine

It seems you've caught me at a real bad time
I'm in the middle of love
Having a real good time
Right in the middle of a love

I'm in the middle of love
The middle of love
I'm in the middle of love
In the middle of love
