

# You Were There

Ron Sexsmith

You were there when I was down  
There when my hope was born  
You never asked a thing in return  
You were there

You were there before the calm  
There in the book of Psalms  
From within your glory shone  
You were there

And what kind of man would I be  
If I let this chance go by?  
To say what you mean to me  
Well, really  
How could I?

And what kind of man would I be  
If I let this chance go by?  
To say what you mean to me  
Well, really  
How could I?

You were there just like the sun  
There when I was young  
You're the first song I ever sung

You were there  
You were there  
You were there  
You were there
