Roni Size

Coming down New sound  
You should be thankful  
Dirty Riffs, Dirty Beats, Dirty samples  
Sell out show take the money  
Then we cancel  
Frontrows backrows getting trampled

What, before we just left the scene alone  
Got some front page headline and ran from out the zone  
Are you mad? I think you're having trouble understanding  
What it takes to fly the globe and keep the crowds demanding  
More of the type of the beats you felt  
The kind of smoothness you associate to cream that melts  
All over tracks distinctive patterns are created  
Like an emblem on the ground that says it's highly rated  
You figured it out, how much energy when we lash it out  
How much goes into a show just when we move and bash it out, eyer in them out  
It's no coincidence were up here  
We're not the lucky team who had the lucky run & cup year

You can't buy a snatched card and jump in this hard  
And bust the kind of moves that cuts the bone and leave you scared  
It's stole behind the picture, taken behind the faces  
Take a look around see who leads and who chases  
Advancing I don't care how you feel just keep dancing  
You heard me I jump on extra tide and flow superbly  
Cuz it's coming open up the gates keep it running  
Never been the once to caught your star slumming  
That's an easy ride, rather sail a storm then a gentle tide  
I find it more exciting and besides I think it's justified  
That we should blow, sky dive in the logo let the people know  
40 000 feat is to climb check out the ratio

You gonna wait until we're gone until you realize it's a masterpiece?  
Treat it like a prisoner who's got no chance of a quick release  
Or realise it's precious and discover the truth  
And let signals be the marker point to reach for the roof

I don't know where to stop when I see low |  
I can't hold back attack, respond with draw(war) | 3x  
I don't where to stop when I see low  
Can you see that you see the door

What you think you could just step it of the street  
If you don't get the bringing you don't get the link  
That's why some people talk when they really need to think  
Clearly like leep years don't come yearly  
Our camp is truely one of a kind mean that sincerely  
For real, we know that you shold know by now  
You see it's started already you should tell by now  
Exact the satisfied friends around the track  
We've already started planning way to set the counter act  
It's been ready for years but see it's all about timing  
You can't expect to reach the top with out a little climbing  
It make sense you can't hold back with defence  
You look tense I move on with carefull accent  
And stand tall don't wanna reach one but reach all

Got the feeling that you heard already cuz we heard call
