

# One Night Stand

Roscoe Dash

It's bright sky  
In a couple of shots and the motor's right  
I can think about what I wanna do tonight  
The song comes on and.. size  
I know I gotta get you to my role tonight  
Girl you turn me on, you got it going on  
Check me if I'm wrong for singing you this song  
All you gotta know with this info  
Come and leave me your phone if you're feeling low  
I know you got a man but the feeling's strong  
Got a room with a double u just get it on  
Ride's parked outside are you ready girl? Cause I am ready girl  
To put it on you heavy girl, till we are sweating girl  
I'm a take you down right before I break you down legs  
Wrapped around my neck as you're making freaking sounds  
You ain't never had it like this before  
Now she's all in love but it's the love I adore

Baby girl this is a one night stand  
I wanna leave this girl I ain't feeling that  
One night stand, we seek us somewhere we can kick it back  
One night stand, we can take the elevator up to my room  
One night stand, but girl it's on you, girl it's on you, girl it's on  
you

The next day the phone rings, it's her again  
Says she stayed in, wanna get it in  
But baby girl I'd be obliged  
Cause... got a nigger mesmerized  
Your love is so exclusive,.. got me stupid  
She showed up at my door, panties hit the floor, I want you now, now,  
now  
She stuck her tongue and it went down, down, down  
Uuu, you're so nasty, girl you're soaking wet, I run your ship, girl  
I'm your captain  
What's your.. fantasy, girl we gonna make it happen  
Your love is off the train I can't explain it started out as

A one night stand, I wanna leave this girl I ain't feeling that  
One night stand, we seek us somewhere we can kick it back  
One night stand, we can take the elevator up to my room  
One night stand, but girl it's on you, girl it's on you, girl it's on  
you

.. to make love you fell in love the girl I love, the way you love me  
girl  
It started out as a one night stand  
It started out as a one night stand  
.. to make love you fell in love the girl I love, the way you love me  
girl  
It started out as a one night stand  
I wanna leave this girl I ain't feeling that

One night stand, we seek us somewhere we can kick it back  
One night stand, we can take the elevator up to my room  
One night stand, but girl it's on you, girl it's on you, girl it's on  
you.
