

I Cry

Rotersand

Me and you
standing eye to eye
I read your face,
i've known you for so long
Torn in two
and i don't know why
What was right
somehow now is wrong

I say hey my friend
Don't let it end
We've got to try,
try while we still can

I say hey my friend
I don't know when
But there's a time
our sun will rise again

What we did,
what we said
What we missd and what we had
I cry i cry
over you

What we did,
what we said
What we missd and what we had
I cry i cry
over you

I say hey my friend
I say no you can't
Walk away,
run away like this

What we did,
what we said
What we missd and what we had
I cry i cry
over you

What we did,
what we said
What we missd and what we had
I cry i cry
over you

What we did,
what we said
What we missd and what we had
I cry i cry
over you
