

I Feel You Don't

Rotersand

Words of violence
The force of will
The curse of silence
Frozen still
I feel, but you don't

Lines of fire
And tracks of tears
And faint desires
Of yesteryear
I feel, but you don't

I thought we lived a lover's dream

But it was never what it seemed
'Cause I feel, but you don't

I thought it's heaven that we found
But in our hell we hit the ground
'Cause I feel, but you don't, you don't
