

## Not About You

**Rotersand**

Is it fate that you believe in?  
Or the stars you look you to  
There's no rythme but there's a reason  
Something's watching over you

And there's a sky above you  
The great eternal blue  
And this is not about you  
And there's a sky above you  
The great eternal blue  
And this is not about you  
We can see  
When we love  
When we feel the stars above

When we care  
We are together

A mysterious mechanism  
Evanescent in it's parts  
We're retreat and we are prison  
Four our minds and for our hearts

And there's a sky above you  
The great eternal blue  
And this is not about you  
And there's a sky above you  
The great eternal blue  
And this is not about you
