

Whatever

Rotersand

Ages since you've gone and I steadily miss you
Ages dead at heart still I'm walking the line

You're out of reach, you cut me off but I still can't release you
I hold on to you, I keep it alive though I'm wasting time

But I know for real
There's something you can't take from me

Whatever it takes me
If even it breaks me
I dare to play my part
Whatever they tell me
How badly you failed me
I hold on to my heart
I've been though it all
I won't beg and crawl
You're watching me fall

But I'll be standing tall
But I'll be standing tall

Time and time again poisoned memories haunt me
Time and time again I won't shake the disease

You're out of reach, you cut me off but I still can't release you
I hold on to you, I keep it alive though I'm wasting time

But I know for real
There's something you can't take from me

Whatever it takes me
If even it breaks me
I dare to play my part
Whatever they tell me
How badly you failed me
I hold on to my heart
I've been though it all
I won't beg and crawl
You're watching me fall

You're out of reach
You cut me off
I hold on to you
I keep it alive
You're out of reach
You cut me off
I hold on to you
