

Lonely Thing Called Me

Roy Drusky

My heart is yours I just use it to love you but without you it'
s no good to me
So don't ever leave me for this heart would be
Just a part of the lonely thing called me
Others may tempt you and tell you they care
But you'll just find sorrow in a secret love affair
My life is yours but without you it would be just a part of the
lonely thing called me

My arms are yours I just use them to hold you but they just can
't hold a memory
So don't ever leave me for these arms would be
Just a part of the lonely thing called me
Others may tempt you...
