

# How Did We Get So Dark?

Royal Blood

I saw it coming  
Like the shadow on the wall  
You starting running  
When everything turned cold  
How did I become lookalike  
Of someone you used to love?  
Someone you used to love

So dark  
How did something so sweet tear us apart?  
Oh, on a sinking ship with a heavy heart  
How did we get so dark?

Nobody warned you  
The tables would turn  
I could have told you  
Everything you've learnt  
Would burn to dust  
Now there's no one you can trust  
Just someone you used to love  
Someone you used to love

So dark  
How did something so sweet tear us apart?  
Oh, on a sinking ship with a heavy heart  
How did we get so dark?

How'd we get so dark?
