Paradise

I need a fix

My dove You came to the window as a spark And left as a raven after dark Was I the tourist in your heart? Now love I tried to be native in your land But you dismissed me careless hand For I've held paradise But lost sight of it now And time Don't be a stranger with a drop Fill in the spaces Set up shop

Fast forward clocks All I want is to hold you to me now

All I want is forever to allow

Royal Wood
