

Legendary

Royce da 5'9"

Theme song to my supplier
Plays in the key of a key
I'm like a messiah crossed with The Wire
Rapping around the Boardwalk Empire
Who brought their Bibles? This the Christ chapter
I'm sick enough to take my life
Then take your life after
Don't take me light or play me light
We two of the same
God melted a Rubic's cube into fluid and threw it in my intuitive brain
I'm eating food for moving music in a gratuitous lane
I threw twice, now I'm running through it til I'm through with the game
You can find me under a black cloud I'm a dark star
Only thing I hate worse than a mark, is a marked car
I climb mountains like Marvin Gaye, Tammy Terrell
If you could put a face with my style it'd be Samuel Cassel's
I switched the fire up like I am a tranny from hell
What I got in my hand right now should remind you of Stanley Burrell
Cause it's the hammer the cannon you can dance with the shells
My pet peeves are granny panties and planning to fail
I'm a heavyweight, I'm catastrophic when I set it like Farenheit 9/11,
Meditate till the levees break
I tar and feather featherweight till my fetti straight
The mac 11 will clap your melon and give your ass spaghetti face
Uh, you ever look inside some dying eyes?
You'll see surprise and realize there's no denying God
When was the last time that you heard that the iron tried?
Ryan vibes like cyanide, I am proud
To say that I've evolved there's only one "I" in "defying odds"
Small time arrogance parishes everytime in giant pride
Who ya'll respect is probably cross-dressing
Your favorite MC could probably find themself vibing to my lost sections
I'm legendary

Now everybody wanna believe me, but they don't really know what's in my hear
t
This time around is starting to feel easy, my enemies startin to fall down
(I'm legendary, legend-legendary, le-le-legendary)
My enemies startin to fall down
(I'm legendary, legend-legendary, le-le-legendary)
Fall Down
(I'm legendary)

I got my noodles intact
You want support of Detroit rap niggas can Google this gat
Cause we the reason why you eating we put the food on the map
Right where the mitten is and you ain't do jack
Just who we hittin here? This here's a different year,
You shouldn't assume I'm tryna measure up to you when I tell you the ruler is
back
In fact, as far as you new kids, what've you did?
I know that I've burnt some bridges in the past but I'm happy to say that I'
ve built a new bridge
As far as killin I'm forever willing and ready
I will make my children's peanut butter and jelly sandwich with a machete
Uh, you marry the streets than we will kill at your wedding
Tell every guest at your reception they gon get more than just hit with conf

etti

Uh, now your bitch a believer,

You know what you get when you mix a bumblee with a lamb?

You get the 'ghini I'm sitting in

Riding through Pittsburgh while I'm listening to Wiz Khalifa

Black & Yellow a blunt to joint, here's the reefer

One minute you tough, one minute you shook

I know I've learned a while ago to hide power from you I should just put it
in a book

You illiterate parasites I'll kill you everytime

Throw a nigga body around the room have a nigga lookin like Jamiroquai

And yes I, am a firm believer that the naked truth looks 100 times better than
the best dressed lie

And while you niggas is hatin, I wonder is God really an athiest

He made me the same temperature as his nemesis Satan

Ya'll need to repent because ya'll been imitating

A statue of me to you is a statute of limitations

You backwards as me and a feminist dating

Let's tally the sales, like Gladys and Patty LaBelle

I'm a big wig, my straws in the hole of a volcano I'm havin a big swig

Everybody wanna believe me

But they don't really know what's in my heart

It's time I started to feel easy

My enemies starting to fall down
