

You're The Medicine

Rush Of Fools

Anything that this world has for me
You can throw it all away
Anything that this world wants from me
Well it's useless anyway
There's a heart that wants me
It's a love that can't be earned

You are, You're the medicine
Not a sedative
I need You here with me
I need You
Whoa, Whoa, Whoa

All the time that I have wasted here
I'd beg to have it back
And all the lies that I have made appear
Are just symptoms of what I lack
There's a love that haunts me
It's a love that can't be earned

You are, You're the medicine
Not a sedative
I wanna feel my heart beat again
You are, You're the remedy
The cure to this disease
I need You here with me
I need You
Whoa, Whoa, Whoa

There's a heart that wants me
It's a love that can't be earned

You are, You're the medicine
Not a sedative
I wanna feel my heart beat again
You are, You're the remedy
The cure to this disease
I need You here with me
I need You
Whoa, Whoa, Whoa [x2]
