

Lost

RX Bandits

Friends with me today,
Friends with me but not tomorrow.
There is nothing left to say (because I lost them)
What did I do

Lost a handful found a few
My hearts still close to you
Hold me so tight,
Don't let me drown (i won't).

What's deep inside
I won't let go
Stretching out today,
Grasping forth there's no tomorrow.

We're all gone our own ways
What did I do?
Cut off what I mean to you
But at least I told the truth.

There's no love for us all
There's no place for my future
Nothing left not at all
Nothing left I can't find it

I can see its my fault
How could I be so stupid?
I don't love anymore
Drop me now cause I'm so damn lost

Friends with me today,
Friends with me but not tomorrow.
There is nothing left to say (because I lost them)
What did I do

Lost a handful found a few
My hearts still close to you
