Bottles get to popping, models get to flockin
Watch in the vip, say nothin
I stay stuntin, fly boy you can see I be
Went out to london, party at the dungeon
Pretty women, we getting em in abundance
Edgar missin from sippin remi and function
Swag from the trillino, swag as soon as he come in
It's gonna get live in the buil
Have you seen her, it was all eyes on this chick
Whine in the hips, from right behind her she pip
She on it, see that she want it, bitin her lip
Lost couple shots made my head spin
Faded like a wash on my edwins
I get things, I ain't tryina stunt
I hate a run like I'm driving drunk
Nicki talk to them!

When we out there ravin, so small it's fragrant
Don't they behaving their worst
Going out of they mind, cause my game is so fine
No every girl is claiming I'm high
Nothin, I float where I'm standing
Runway, make room where I'm landing
Raw, raw, like a dungeon dragon
And when I come through swagging
B line when I step through the crowd
Then I up, ever had sex on a cloud
Let me pin you, I'm not tryina steam you
I'll link you and take you through the places I've been through
You celebrating, here's to elevation
Point no need for genes achin
Maiko runnin the streets and now we made mental
We ain't even gotta compete to make a statement
