Walk on the Wire

Sahara Hotnights

Sunday comes and my baby's not here
I make lonely weekend calls
I got to tell you something
A kid saying I won't be bad no more
Come on come on did you ever see my ghost before

Who's gonna walk on the wire Who's gonna walk on the wire Stray cat you talk like a liar

One wrong step on the side of the road Don't save me when I start to fall One part luck, 99 part genius
Thin like a paper wall

Who's gonna walk on the wire Who's gonna walk on the wire I don't wanna be with no other
