

Starfall

Salem

The stars gonna fall every night
I see a stranger look in your eyes
I know that we've only just met
But I don't want to see you cry

Nothing I could do would change
I tried to stay with you
So I leave you in the night
I don't have anything for you

Stars gonna fall every night
I've seen that senseless look in your eyes

And I know we've only just met
But I don't want to see you cry

Nothing I could do would change you
And I tried to stay like a fool
So I'll be leaving you in the night
'Cause I have no answers for you

No answers for you
No answers for you
No answers for you
