

# No Tomorrow

Sam Bailey

Took some time  
But I'm here to stay  
Look what you've done for me  
All that's become of me  
Thanks to you  
I know who I am  
You help me understand  
That you have to find yourself  
Before you find your man

From now on, I'm gonna try  
Love you like there's no tomorrow  
Can't help feeling why  
Love you like there's no tomorrow  
When I needed a miracle  
You came shining through  
And when tomorrow comes  
Baby I'd be loving you

You were there  
Somewhere in my soul  
Lighting the way for me  
Facing each day with me  
I found out  
When the stars aligned  
Lucky me, you're mine  
I don't wanna waste a minute  
After all this time

From now on, I'm gonna try  
Love you like there's no tomorrow  
Can't help feeling why  
Love you like there's no tomorrow  
When I needed a miracle  
You came shining through  
And when tomorrow comes  
Baby I'd be loving you!

When I needed a miracle  
You came shining through  
Yes, you did  
And when tomorrow comes  
Baby I'd be loving you!  
I'm gonna love you like there's no tomorrow  
Oh I'm gonna love you like there's no tomorrow...
