

Take It out on the Dancefloor

Sam Bailey

When your life don't turn out the way you planned
Think no one understands bout nothing
All you need is someone to say you can
Get through the hardship and do something

Through the haze, yeah, I can't see the light
I just need to lose myself tonight
It's alright

If you're feeling you can't take anymore
Say what you're waiting for?
Let's take it out on the dancefloor
Take my hand and don't turn back
Just take it out on the dancefloor
Take it out on the dancefloor

Your world crumbles before your very eyes
It comes as no surprise, you're running
Your heart beats faster, your temperature will rise
That's when you feel that Friday's coming

Through the haze, yeah, I can't see the light
I just need to lose myself tonight
Lose myself tonight

If you're feeling you can't take anymore
Say what you're waiting for?
Let's take it out on the dancefloor
Take my hand and don't turn back
Just take it out on the dancefloor
Take it out on the dancefloor

Take it out on the dancefloor
Take it out on the dancefloor
Take it out on the dancefloor
Take it out on the, take it out on the
Take it out on the dancefloor
Take it out on the dancefloor
Take it out on the dancefloor
Take it out on the dancefloor

When you're feeling you can't take anymore
Say what you're waiting for?
Let's take it out on the dancefloor
Take my hand and don't turn back
Just take it out on the dancefloor
Take it out on the dancefloor
