

Treasure

Sam Bailey

I can hear your voice it's calling
I can feel the teardrops falling now
I whisper your name
Even though we're miles apart
I'm counting every minute every hour
Til I see you again

But you know we'll always have our star
And it shines no matter where we are

So just look up to the sky you'll always find
A treasure in me
Although its dark it feels so bright
Don't need miracles to bring you back to me
Cause everywhere you are there I'll be

All the words are left unspoken
Wish that I could tell you I'm so proud
Proud to have your love
And when the heart feels broken
Remember that a light burns deep inside
Its only for us

Cause you know we'll always have our star
And it shines no matter where we are

So just look up to the sky you'll always find
A treasure in me
Although its dark it feels so bright
Don't need miracles to bring you back to me
Cause everywhere you are there I'll be

I dream of the day we'll meet again
Yeah it might be a long road
But it still wont change a thing

So just look up to the sky you'll always find
A treasure in me
Although its dark it feels so bright
Don't need miracles to bring you back to me
Cause everywhere you are there I'll be

There I'll be
Oohhh ohhhh

Don't need miracles to bring you back to me
Cause everywhere you are there I'll be
